Tiny Engineer - laptop screen inserts: Colour screens

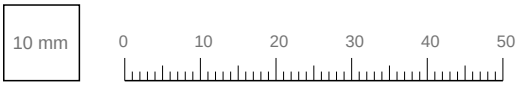

Servo preset: Tower Pro SG90 (sg90)

Print only one page for sg90 parts.

Colour or black-only printer on white paper. Dark fills hide the paper colour.

Insert 45.6 x 34.4 mm (cut on the grey line). Visible window 45.2 x 25.9 mm, 0.2 mm from the left and 1.7 mm from the top edge.

Slide the paper insert, then a same-size piece of clear PET, into the lid pocket in front of LaptopScreen.

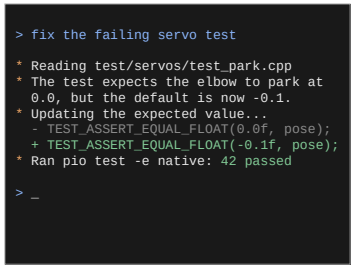

Square must measure 10 x 10 mm and the ruler 50 mm.
If not, reprint at 100% / Actual size (scaling off).

Tiny Engineer - laptop screen inserts: Colour on coloured paper

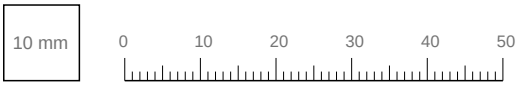

Servo preset: Tower Pro SG90 (sg90)

Print only one page for sg90 parts.

Colour printer, pale coloured paper: no fill, colours darkened to read on the paper.

Insert 45.6 x 34.4 mm (cut on the grey line). Visible window 45.2 x 25.9 mm, 0.2 mm from the left and 1.7 mm from the top edge.

Slide the paper insert, then a same-size piece of clear PET, into the lid pocket in front of LaptopScreen.

Square must measure 10 x 10 mm and the ruler 50 mm.
If not, reprint at 100% / Actual size (scaling off).

Tiny Engineer - laptop screen inserts: Paper screens

Servo preset: PowerHD HD-1370A (hd1370a)

Print only one page for hd1370a parts.

Any printer, any paper colour: no fill, so the paper becomes the screen.

Insert 32.7 x 25.2 mm (cut on the grey line). Visible window 32.3 x 16.7 mm, 0.2 mm from the left and 1.7 mm from the top edge.

Slide the paper insert, then a same-size piece of clear PET, into the lid pocket in front of LaptopScreen.

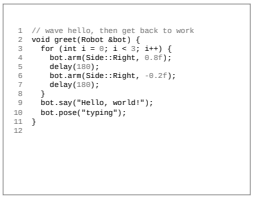

Square must measure 10 x 10 mm and the ruler 50 mm.

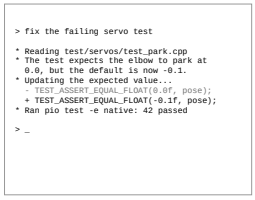

If not, reprint at 100% / Actual size (scaling off).
